

GERMAINE DE CAPUCCINI

DISCOVER A NEW ERA OF FIRMNESS

Revitalise your skin with Timexpert Lift_In

Imagine a reality where your skin's **firmness and vitality** not only remain the same but improve day by day. Experience a treatment where each application brings you closer to the skin you've always dreamed of.

LOOK GOOD TO FEEL BETTER

TIMEXPERT LIFT_IN
Firmness and Vitality Serum

TIMEXPERT LIFT_IN
Global Firmness Cream

TIMEXPERT LIFT_IN
Global Firmness Cream Extra-Rich

As we age, the skin naturally loses collagen and elastin. Collagen, the body's most abundant protein, provides structure to connective tissues. Elastin, found in the dermis, works with collagen to form elastic fibres that prevent flaccidity and loss of tone.

CAN YOU IMAGINE RETURNING TO YOUR SKIN FROM 30 YEARS AGO*?

TIMEXPERT LIFT_IN conquer youthfulness

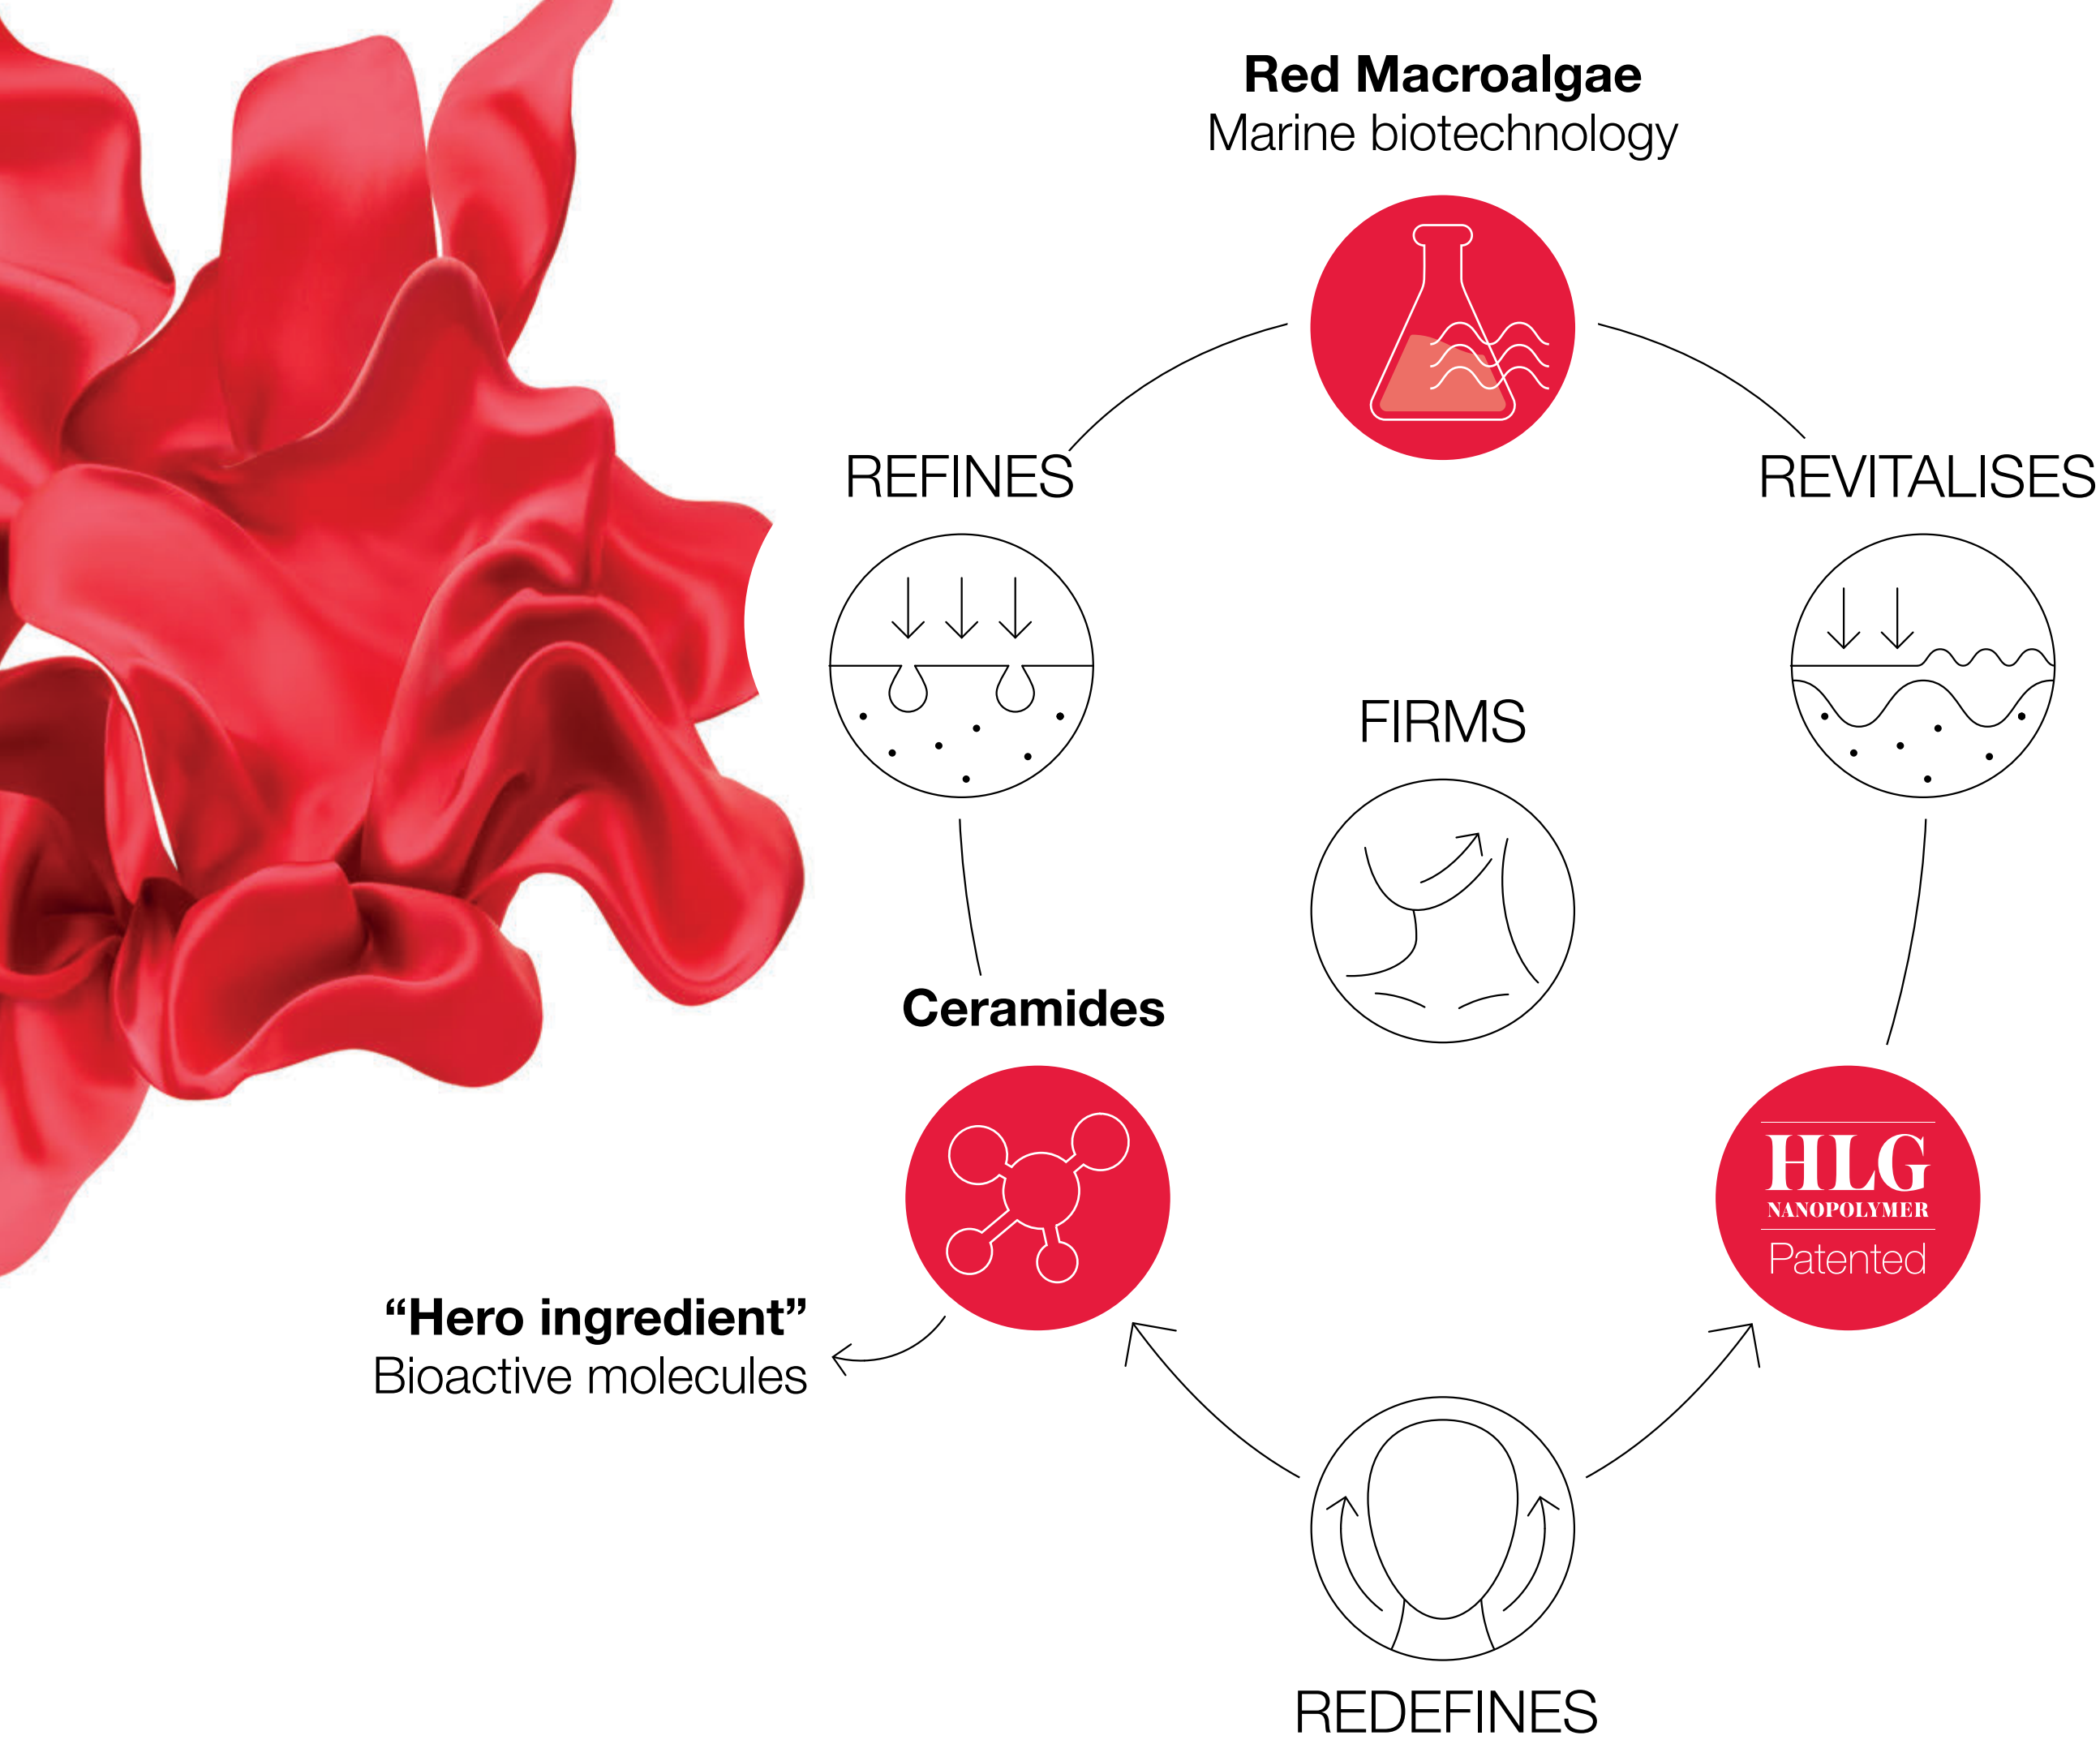

A revolutionary treatment that guarantees the visible results¹ your skin deserves.

100% Firms – Redefines
Revitalises – Refines

*Self-assessment test results from 24 volunteers after 3 sessions of Global Firming Treatment + Firmness and Vitality Serum + Global Firmness Cream.

THE POWERFUL FORMULA

A fusion of cutting-edge technological advances with principles of neurocosmetics and environmental responsibility. A revitalising effect that combats flaccidity and other visible signs of ageing.

RED MACROALGAE from Brittany

Known as “the red star of the ocean”, marine biotechnology provides us with this “multi-talented” ingredient that transfers its biological activity to the skin, combating gravity and enhancing the sensation of repositioning, improving suppleness and firmness.

NATURAL ORIGIN CERAMIDES

Bioactive molecules that enhance skin youthfulness by addressing the factors responsible for loss of firmness and suppleness. A star ingredient.

HLG

Exclusive patented nanopolymer composed of Hyaluronic Acid and Glutamic Acid linked by Lysine bridges that deeply hydrates and multiplies the formula's effectiveness.

COMBINATION OF INGREDIENTS

Enrich the formula with their powerful actions. Among their many benefits, they minimise the appearance of pores, unify, improve and visibly smooth the skin's appearance, tone and texture, while promoting a tightening effect to reduce sagging.

*The Mann-Whitney test evaluating the impact of ageing on dermal suppleness in a mature skin donor showed a significant improvement in skin flexibility, approaching that of skin 30 years younger.

MULTIPLY THE BENEFITS OF YOUR ROUTINE IN THE SALON

GLOBAL FIRMING TREATMENT FACE – OVAL – NECK

EMPOWER YOUR SKIN

The firming ritual that awakens daily vitality

96% New vitality in the skin*

*Self-assessment test results after 45 days using Firmness and Vitality Serum + Global Firmness Cream.

1er paso

TIMEXPERT LIFT_IN

Firmness and Vitality Serum

A deeply effective and long-lasting serum that enhances the definition of cheekbones and key areas of the facial oval. Its pleasant, enveloping texture is enriched with a blend of redensifying, firming and refining ingredients.

Formulated with P.I.T. (Phase Inversion Temperature) technology, it combines lightness and a “silky feel” with emollience.

Results from the first application. Continued use provides a visible improvement in signs of ageing, a more even tone and radiant, revitalised skin.

Instructions for use: Apply morning and night to clean skin before your usual treatment cream. Self-replenishing pipette.

2° paso

TIMEXPERT LIFT_IN

Global Firmness Cream

An anti-ageing treatment with a tightening effect that helps renew skin firmness and suppleness, redefining its appearance on the face, oval and neck. Effectively prevents and restores facial volume loss from the first application.

Combines a “multi-talented” and versatile ingredient that, by interacting synergistically with other components of the formula, enhances its benefits. Day by day, the skin looks more rejuvenated and smoother.

Instructions for use: After the treatment serum, apply morning and night over the face, neck and décolletage. It is recommended to follow with a sunscreen.

TWO SOPHISTICATED TEXTURES

Normal to combination skin

Light and enveloping

Alpha-gel technology creates a refined “second skin” effect, instantly improving skin texture and relief.

Dry to very dry skin

Rich and comfortable

Formulated with Buttered-Wax technology, it forms a superficial film that prevents water loss and offers an exquisite sensory experience.

THE POSITIVE IMPACT OF TIMEXPERT LIFT_IN

At Germaine de Capuccini, we're working today to reinvent the beauty of tomorrow. We are committed to building a legacy for future generations based on sustainability and ethics.

RESPECTFUL OF THE ENVIRONMENT

INGREDIENTS OF MAXIMUM PURITY AND EFFECTIVENESS

Extraction of the Red Macroalgae from Brittany using **Blue Technology**, optimising the separation of bioactive molecules.
